Task 6: Final Code Submission & Application Demo (Deadline: February 15, 2025)

This is the last step of the program, where participants will:

- Upload the **final working code** to their GitHub repositories.

- Record and submit a **short video demonstration** of their application in action.

📌 **Final Goal:** To ensure that all participants successfully **complete and showcase their working applications**, demonstrating their practical implementation of RISC-V technology.
